SUMMER GAMES

FLASHLIGHT TAG

HOW TO PLAY:

STEP ONE

Choose a player as "it"

STEP TWO

Players hide while "it" counts to an agreed upon number LOUDLY

STEP THREE

After "it" is finished counting, he or she heads into the darkness armed with a flashlight in hopes of finding the hiding players

STEP FOUR

Players should remain quiet and hidden to escape being lit up by a flashlight. But that's boring. The more running around, the more fun!

STEP FIVE

Once the beam of light lands on them, a player is "tagged". They can either become "it", or sit out until the rest of the players are found. Our Flashlight Tag Research Team has deemed either version both acceptable and fun.

HOW TO WIN:

Stay out of the flashlight and be the last to get tagged or be the "it" who tags everyone!
